ABSTRACT

This research attempts to investigate the similarities and differences of the status and role of Tshivenda in South Africa and in Zimbabwe. The study seeks to explore the relationship of the status and role of Thivenda in Zimbabbwe as compared to that of South African. Furthermore the study endeavour's to motivate and encourage Tshivenda students in Zimbabwe and South Africa to have a clear understanding of the status and role of the language. The study will illustrate the role and status of Tshivenda in both countries by using various methods of research: qualitative and quantitative which will include interview, observation, focused group discussion and intended questionnaires to the targeted populations. The proposal focuses on background to the study, statement of the problem, aims of the study and objectives and justification of the study.
